For Immediate Release

Kansas City, KS – 1 November 2010

CZ 200 S CAL .177, COMBO W/ 4X32 AO SCOPE AND RINGS

The CZ 200 S is a high power, precision air rifle based on CZ's 10 meter Olympic style competition model. The increased velocity of the 200 S (16 Joules delivering up to 800 fps) makes it appropriate for pest control as well as most competitive disciplines, both youth and adult. The 2 stage adjustable trigger, and consistent pneumatics allow the shooter to take full advantage of the hammer forged 12 groove barrel. The new red laminate stock is optimized for use with optics and excels at 3 position as well as off hand shooting. The rifle is delivered with a 4x32 scope and rings, parallax adjustable down to 10 yards, especially important for shooting at typical air gun distances. Adaptors for filling and discharging the 2900 psi pressure cylinder of the 200 S are also included. Accessories including diopter (aperture) sights, a manual pump, 5 and 10 shot magazine adaptors, and spare cylinders are available from CZ-USA.

- Adjustable Pre-charged pneumatic(16 Joules max)
- 2 stage adjustable trigger
- 12 groove match bbl
- Red laminate competition style stock
- 4x32 adjustable objective scope and rings
- 800 FPS with 7.9 gr .177 cal pellet
- Removable Compressed Air Cylinder with pressure gauge.
