For Immediate Release

Kansas City, KS – 1 November 2010

CZ 455 American Switch Bbl Rig

The CZ 455 American Combo Package is now available from CZ-USA. The package features the new CZ 455 in .22LR and a .17 HMR barrel along with everything you need to make the caliber change. The CZ 455 eliminates the need to spend the extra expense on a second rifle when you want to add another quality shooter to your rimfire battery.

The new CZ 455 is the next generation of the CZ bolt action rimfire. The 455 model will eventually consolidate all of the receivers currently used in the 452 line into one common platform. This combined with the new interchangeable barrel system of the CZ 455 will allow the user to easily change the stock configuration as well as the caliber of their rifle. The 455 retains the accuracy and quality of the adjustable trigger, hammer forged barrel and billet machined receiver from the CZ 452. Improvements that the 455 brings include new manufacturing technology and tighter tolerances for improved accuracy and smoother operation. The American model is the first to see the benefits of the change from 452 to 455.

One 5 round magazine is included for each caliber as are both wrenches required to switch calibers.

Item #2120 CZ 455 American Combo cal .22 LR with .17 HMR replacement bbl \$531
