

ČESKÁ ZBROJOVKA  
SINCE 1936

# TRAINING IN SHOOTING AND TEACHING OF TACTICS

Česká zbrojovka a.s. offers training courses in shooting and teaching of tactics intended for:

## ARMED FORCES AND SERVICES

*(police, army, customs authorities, prisons service, etc.)*

## SECURITY COMPANIES AND AGENCIES

Training and teaching is „tailor-made“ for each customer in accordance with particular requirements and may involve:

- Shooting training, from the very basic shooting skills up to coping with a more complex and demanding shooting situations
- Teaching of shooting under dim light conditions
- Teaching of so called black tactics:
  - tactics in buildings and constrained spaces roundup
  - tactics in urban areas
  - tactics in means of transport and delivery equipment interposition
  - teaching of tactics applied in operations against motorized perpetrator (proper stopping, approach, support and subsequent detention of suspected offender of criminal act, or overruling of aggressive driver who tries to attack police officers, dealing with a person who puts passive resistance and does not cooperate, and the like)

- Teaching of personal protection tactics (from protection by individual up to protective squad)
- Teaching of medical essentials (specifically first aid for wounds resulting from shooting, stabbing or cutting injury)
- Teaching of defence with firearm against knife or rod, disarmament of an adversary using handgun, etc.
- Use of Simmunition cartridges for interactive tactics training.

Practical training in shooting is conducted at the indoor shooting range and also at the outdoor shooting grounds of České zbrojovky a.s. Teaching of tactics runs both in indoor facilities and in the fields.

For the practical training the following firearms made by ČZUB will be used:

- CZ 75 pistol series (DUTY, PHANTOM, etc.)
- EVO 3 A1 Škorpion
- CZ 805 BREN A1/A2
- CZ 750 sniper rifle

*The training is conducted by instructors having a great experience and long standing practice in armed forces and services.*
