Dear Customers, Business Partners and Supporters of the CZ brand,

As you've just opened our new 2022 product catalogue, I would like to take this opportunity to share some exciting news with you. Since 2018, Ceska zbrojovka has been part of CZG - Ceska zbrojovka Group. Together with its subsidiaries, CZG is one of the world's leading manufacturers of small arms for the armed forces, self-defense, hunting and shooting sports. Companies with complementary production programs are being gradually integrated into CZG. The famous American brand COLT was added to the group in 2021, together with COLT Canada. CZ and COLT are the main pillars of the group. The synergy of these companies, and their mutually shared know-how, are a guarantee of further growth as a whole of all companies in the group, and the holding itself.

This year is marked by a complete overhaul of our centerfire rifle product line. As you go through the catalogue, you will be greeted by our brand new range of CZ 600 centerfire rifles, which replaces our previous centerfire rifle lines - the CZ 527 and CZ 557.

The CZ 600 has a unique, highly modular design and comes with a number of patented features. All key characteristics have been improved, such as reliability, safety, accuracy, shooting comfort, durability and ergonomics. We offer models in a wide range of popular calibers for hunting, shooting sports and hobby shooting.

The CZ 600 ALPHA is suitable for use in inclement weather. The CZ 600 RANGE is designed for highly precise shooting at medium to long distances. The CZ 600 ERGO provides maximum shooting comfort. The CZ 600 LUX features a classic hunting rifle design. And finally, the CZ 600 TRAIL is in the modern style of a compact hobby rifle.

You can also look forward to a presentation of our complete product portfolio in the catalogue - pistols, rimfire rifles, shotguns, semi-automatic rifles and a wide range of accessories.

I'm confident that you'll be delighted with our products and will find something that perfectly fulfills your wants and needs. Thank you for your support and I wish you luck in choosing your new CZ firearm. And if you're buying your first CZ gun, I'm honored to welcome you to the worldwide club of CZ customers and supporters!

Jan Zajíc

CEO and Chairman of the Board of Directors Ceska zbrojovka a.s.

CENTERFIRE RIFLES

CZ rifles for hunting and sport are traditionally among the best long firearms available on the world market. As with all our products, the CZ brand is synonymous with ingenious design, reliability, accuracy and first-rate quality at an affordable price. In 2022, Ceska zbrojovka introduces the brand new CZ 600 series. Its unique, highly modular design comes with a number of patented features that improve allkey characteristics -from reliability and durability to ergonomics and shooting comfort to safety and accuracy. THE CZ 600 SERIES FEATURES A PATENT PROTECTED BOLT DESIGN THAT ENSURES 100% USER-CONTROLLED FEED IN ALL SHOOTING POSITIONS, AND EVEN UNDER THE MOST DEMANDING CONDITIONS

Other benefits include a patented, ergonomically designed vertical safety with completely silent operation, an exceptional magazine that users can select to function as detachable or locked, an extremely durable finish, and easy disassembly that requires no manipulation of the trigger. Models for hunting, sport and hobby are available in a wide range of popular calibers, with kits coming soon that allow users to convert their CZ 600 model to other calibers.

Main features of the CZ 600 series

CONTROLLED FEEDING WITH SHORT EJECTOR

The CZ 600 series combines the best qualities of controlled feed and push feed systems. This simple and reliable patented design delivers 100% user controlled feed in all shooting positions, and even under the most demanding conditions.

UNIQUE SAFETY

A patented, easy-to-access vertical safety at the top of the grip is released by pressing down and allows for completely silent operation.

PATENTED TRIGGER MECHANISM

A newly developed, user adjustable single- or double-stage trigger mechanism with four levels of pull weight that can be adjusted without removing the receiver from the stock.

LOCKABLE MAGAZINE

A detachable, double-stack magazine with a "push n' click" loading operation contributes to an exceptionally smooth and reliable feeding of rounds. The magazine is easily locked by sliding the magazine release up. When the magazine lock is activated, the firearm changes to a fixed magazine configuration.

EASY CHANGE OF CALIBERS

The barrel can be easily disassembled and reassembled by the user, which together with the modular design of the CZ 600 series, allows for the easy change of calibers for a given receiver size. After reassembling the barrel, retention of accuracy is guaranteed after the first cold shot.

SUPERIOR QUALITY BARREL

ADE IN CRECH REPUB.

High-precision barrels with caliber-optimized lengths are cold hammer forged using CZ technology. The barrel features a threaded muzzle for mounting accessories.

EXTREME ACCURACY

The ALPHA, LUX and ERGO models are guaranteed to shoot sub-MOA at 100 m for 3 shot groups, and the RANGE model shoots sub-0.75 MOA for 5 shot groups. The compact TRAIL version is guaranteed to shoot 2 MOA. All models are tested using match-grade factory ammunition.

Due to the use of a locking system, the bolt handle rotates 60° for quick and comfortable reloading without the risk of hitting the scope.

SAFE DISASSEMBLY

A spring-loaded button on the right side of the receiver allows for easy removal of the bolt without manipulating the trigger

EXTREMELY DURABLE FINISH

REPUBLIC, CZ

F156805

The surface of metal components in the CZ 600 series comes with CZ's new BobOx chemical heat treatment, which gives it a hard, durable finish that resists corrosion.

STANDARDIZED MOUNTING INTERFACE

CZ 600 series receivers are equipped with an integrated Weaver rail (aluminum) or Remington 700 type mounting interface (steel).

HIGHLY DURABLE RECEIVER

All CZ 600 series receivers are manufactured from durable aluminum or steel and come with a guaranteed service life of 20,000 shots.

DURABLE RIFLE FOR EVERYDAY USE

The CZ 600 ALPHA comes with a fiber-reinforced polymer stock and semi-heavy barrel. Optics can be mounted on the Weaverstyle rail integrated on the durable aluminum receiver. Easy maintenance makes this model particularly well suited for those who use their rifle on a daily basis and deeply value durability and reliability, regardless of inclement weather.

SPORT SPECIAL

The CZ TSR sport special is based on the CZ 557 series. Chambered in a proven, high-performance caliber, it's optimized for highly precise, long-range shooting. The thick-walled, cold hammer forged barrel is guaranteed for a minimum of 10,000 shots with an accuracy of up to 1 MOA. This advanced and extremely reliable bolt-action rifle can be easily customized to each user's requirements and preferences due to the extensive use of STANAG 4694 mounting rails, as well as a number

RIMFIRE RIFLES

A gateway to the fascinating world of guns and shooting. They're an irreplaceable training aid and exciting source of entertainment, as well as an effective hunting tool and target shooter. These are considered the traditional qualities of long firearms that use rimfire ammunition, so-called rimfire rifles, and models from CZ have served as excellent examples for more than 70 years. The best proof of their success is the millions of satisfied customers and fans around the world, together with the fact that CZ is considered a global standard in this segment. The backbone of its current range is the CZ 457 bolt-action rifle series, which brings many outstanding features to the table. The CZ 457 series is closely followed by the original CZ 512 semi-automatic rimfire rifle series.

CZ 457 SERIES A NEW GENERATION OF MODERN RIMFIRE RIFLES

The CZ 457 series offers exceptional user comfort due to its easy, fast and reliable operation, even with a mounted riflescope. For maximum safety, it comes with a push-to-fire safety on the right side of the receiver, striker status indicator and a separate bolt extractor control. Shooting accuracy is ensured with its adjustable trigger mechanism that features low trigger pull weight and excellent travel, combined with a noticeably lighter striker and a new type of bedding. Other benefits include an extremely durable anticorrosion finish on metal parts, easy change of caliber by users and reliable polymer magazines that are compatible with the previous generation of CZ rimfire rifles.

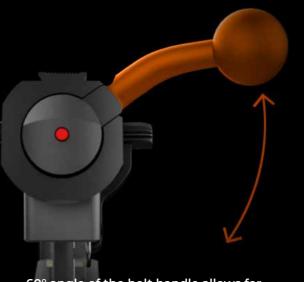

Lighter striker increases striking speed and reduces vibration during firing

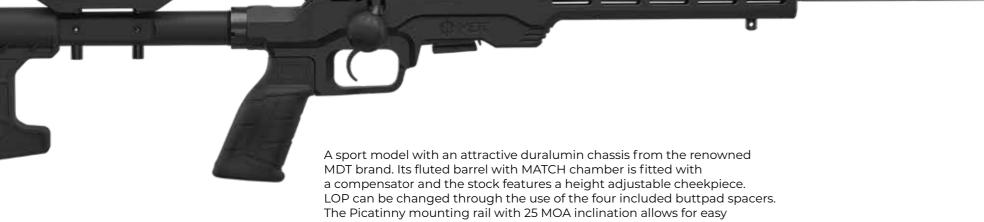

60° angle of the bolt handle allows for convenient, smooth and quick reloading

0 0

A new version of this popular model for accurate, long range shooting. It comes with a 20" thick-walled and fluted cold hammer forged barrel, MATCH chamber and an effective cylindrical compensator mounted on the muzzle. All key features of its black, target-style stock are adjustable. A Picatinny mounting rail with 25 MOA inclination allows for easy sighting in of the scope.

22 LR 5

The CZ 457 AT-ONE sport model from the CZ-USA range, which is held in high regard by our customers, is part of our worldwide offer of the CZ 457 series. This specially designed rifle is equipped with a varmint barrel with MATCH chamber and a massive laminated wood stock from the well-known American brand Boyds, which features an easily adjustable butt pad and cheekpiece. The classic sling loop is complemented by a quick-release loop with anchor holes on both sides of the forend.

CZ 457 THUMBHOLE

17 HMR 5 22 LR 5 22 WMR 5

The perfect combination of ergonomics and elegance. The defining characteristic of this model is its thumbhole stock made from high-strength, gray-brown laminated wood, which also features a unique integrated trigger guard. Its sophisticated stock design allows for comfortable use by both right- and left-handed shooters.

A trail model created for those who appreciate the use of premium materials. Along with the strengths of the 457 series, this 22 LR caliber rifle features an attractive digital camouflage on its soft-touch finished polymer stock and comes with a light profile, weather-resistant stainless steel barrel.

CZ 457 SYNTHETIC

17 HMR 5 22 LR 5 22 WMR 5

The main feature for this model is increased resistance to adverse environmental conditions. All metal components come with a high quality, anti-corrosion finish. Its ergonomically friendly, and extremely strong, polymer stock comes with a soft-touch finish and is resistant to moisture, cold and heat.

CZ 457 SYNTHETIC SET

22 LR 5

With an increased resistance to adverse weather conditions, this model is available as a basic version or as a set with a 3-9×42 riflescope developed especially for this series. The riflescope is sighted in at 50 meters and is securely attached on a durable, two-piece duralumin mount. Reliable and consistent shot groupings are ensured through tests carried out on all CZ 557 centerfire rifles.

CZ-USA FIELD SPORTS SHOTGUNS

Borrowing from the most popular shotguns in the CZ-USA portfolio, this diverse range of long guns exhibits excellent construction quality, reliability and user-friendliness. The traditional core offer is a proven range of shotgun models for hunting and sport shooting, for which a wide selection of interchangeable chokes is available for all models. Needs to be revised - no home defense. In short, there is something for everyone

12/76 | 2

An elegant over/under shotgun made for shooters who require more than just accuracy and reliability from their firearm. The beautiful CNC machined receiver is chrome plated, polished and hand engraved. The stock is made from carefully selected Turkish walnut (Grade III) and features a beautiful image. Additional features include ejectors and a single trigger mechanism that allows you to choose firing order of the barrels.

12/76 | 2

A high level, universal 12-gauge over/under shotgun designed for sport shooting and hunting. The precision CNC machined receiver is chrome plated, which gives it a shiny silver appearance. This model is equipped with ejectors for the fastest possible reloading times and a single trigger mechanism that allows you to choose the barrel firing order.

MODEL	CHAMBERING	CAPACITY	WEIGHT (kg)	LENGTH (mm)	BARREL LENGTH ("/mm)	STOCK	FINISH	CHEEKPIECE	LOP (mm)	СНОКЕ	EJECTOR/ EXTRACTOR	1ST TRIGGER PULL WEIGHT (N)	2ND TRIGGER PULL WEIGHT (N)

The CZ Drake is a over/under shotgun with an extremely advantageous price to performance ratio. CNC machining of components is also utilized for this model. Features include extractor operation, a single selectable trigger mechanism with the ability to choose the firing order of barrels, low weight due to the deletion of the mid-rib between barrels, and laser cut checkering for a slip-free grip.

CZ ALL-AMERICAN NEW

A 12-gauge sport over/under shotgun with an adjustable butt plate and cheekpiece for tuning the gun to your specific body dimensions and shooting style. To minimize recoil, main ports are provided and the trigger mechanism fires the lower barrel first. High-precision CNC machining of all components allows for easy and trouble-free installation of spare parts.

SHOTGUN

12/76 | 4

A 12-gauge semi-automatic shotgun with a gasless inertia operating system for maximum reliability. Its user-friendliness was confirmed with a test of 5,000 shots without a drop of oil or any type of cleaning, while experiencing zero parts breakage or malfunctions. This model is equipped with a stock and forend made from Turkish walnut.

12/76 4

A semi-automatic 12-gauge shotgun with a gasless inertia operating system, which provides maximum reliability with various types of ammunition from light-recoiling target loads to powerful 3" magnums and allows for a more relaxed maintenance schedule. A durable polymer stock makes it an ideal firearm for use in extremely inhospitable conditions. A wide range of chokes is also available for this model.

CZ 612 HOME DEFENSE

A simple 12-gauge pump action shotgun with a durable polymer stock and reduced length, 47 cm barrel with fixed cylinder choke. The result is a compact, reliable and powerful firearm especially suited for home defense, while also being a great choice for competing in IPSC disciplines.

NEW

A reliable and affordable 12-gauge pump action shotgun for sport and hunting. The simple and durable pump reloading system has very low maintenance requirements, while the dual action bars make operation smooth and reliable. The stock is made of Turkish walnut and three interchangeable chokes come as part of its standard equipment.

PISTOLS

CZ leads the world with a comprehensive line of advanced pistols that sees continuous innovation and expansion of models. All categories are covered, from supercompacts to full-size models and sport specials. Pistols within the different series are made from both traditional and modern, cutting edge materials with a selection of hammer-fired and striker-fired models. Keeping with the latest trends, selected models come ready for the installation of a suppressor and/or red dot sight.

RELIABLE STRIKER-FIRED PISTOL SERIES WITH POLYMER FRAME

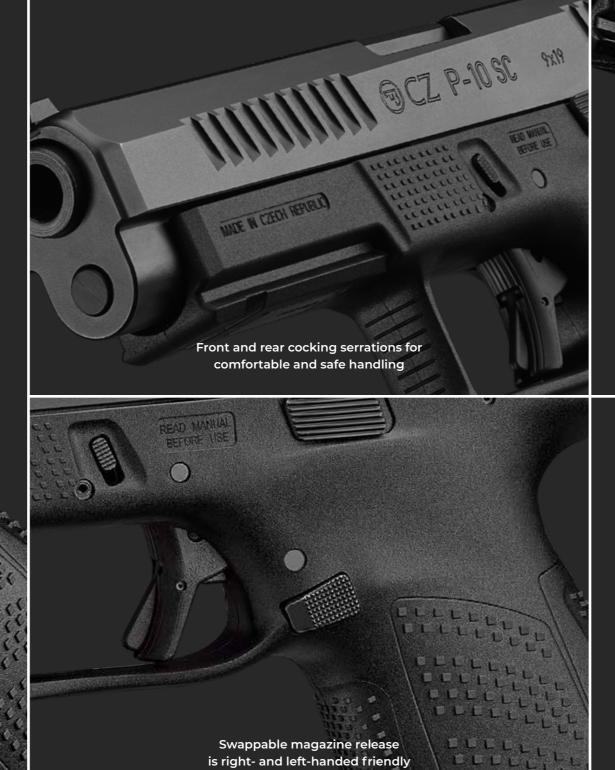

The industry-leading P-10 series is offered in a comprehensive array of sizes, from supercompact (CZ P-10 M) to subcompact (CZ P-10 S), compact (CZ P-10 C), semi-compact (CZ P-10 SC) and full-size (CZ P -10 F). Most models are also available with a design that allows for the easy installation of a suppressor and/or red dot sight.

All CZ P-10 series pistols feature maximum reliability, high accuracy, a long service life and shooting comfort. The sophisticated grip and checkering were created in accordance with the modern ergonomic DiFEND method, which significantly contributes to extreme user-friendliness. The very first model released in this series, the CZ P-10 C compact, was named "2017 Gun of the Year" by the prestigious American magazine "Guns & Ammo".

CZ P-10 SERIES

Main features of the CZ P-10 series

Flat ambidextrous slide stop (CZ P-10 S, C, SC and F models)

Ergonomic grip with prominent checkering for superb shooting comfort, stability and safety

Lightweight and durable fiberglass-reinforced polymer frame is mechanically strong and thermally stable

nor la r

Three easily interchangeable backstrap sizes to modify grip and finger reach C637

9x19 N

The full-size model of the CZ P-10 pistol is the ideal choice for shooters who prefer the best possible grip, maximum magazine capacity and long barrel.

CZ P-10 F OR

9 × 19 | 19

The CZ P-10 F OR (Optics-Ready) has been designed for the increasingly popular option of mounting a red dot sight quickly and easily. The original CZ mounting interface is known for its robustness, strength, durability, low installation height and easy aiming with the red dot sight at short to long distances. This model also comes with high (cowitness) iron sights in case optics are damaged or fail.

The CZ P-10 M is a reliable and exceptionally accurate supercompact pistol. It retains the stand out features that have set it apart from other striker-fired pistols, most notably outstanding ergonomics and a superb trigger. With a reduced footprint and width, it has been optimized for comfortable concealed carry, while maintaining a 7+1 capacity with 9 × 19 mm cartridges. An internal slide stop and user-friendly trigger make the CZ P-10 M an ideal firearm for everyday carry.

WORLD LEADER IN THE SA/DA POLYMER PISTOL CATEGORY

The CZ P-07 (compact) and CZ P-09 (full-size) models enjoy an impressive reputation around the world for their comfortable and simple operation, high accuracy even during rapid firing, and absolute reliability in adverse conditions. Their main advantage is the original OMEGA trigger system, which features smooth trigger pull and low pull weight in both single-action and double-action modes. Easily accessible, ambidextrous controls can be easily converted from manual safety to decocker and vice versa. All calibers come with high capacity magazines, which can be further increased with an easily interchangeable magazine base plate.

SEMI-AUTOMATIC RIFLES / CARBINES

The semi-automatic CZ SCORPION EVO 3 S1 and CZ BREN 2 Ms series' are among the world's elite in their respective categories. Their parameters and high level of performance make them an ideal choice for today's dynamic shooting sports, maintaining shooting fitness and hobby shooting.

LEADING SEMI-ALITOMA CARBINES FOR MODERN SHOOTING SPORTS

The unique design of the CZ SCORPION EVO 3 SI series offers its users many benefits, such as light weight, advanced ergonomics, high accuracy, comfortable handling, easy disassembly, impressive reliability and extremely fast reloading.

CZ SCORPION EVO 3 SI

9 × 19 | 20 9 × 21 | 20

A semi-automatic rifle chambered for pistol cartridges. Its simple design, extreme reliability, light weight, easy handling and accuracy make it the perfect fit for modern shooting sports and hobby shooting.

CZ **SCORPION EVO 3 SI** CARBINE COMP

9 × 19 | 10

The increased shooting comfort of this model is due to an effective two-chamber muzzle brake fitted on its 16" barrel and a long forend equipped with the M-LOK attachment system. It's a first-class firearm for modern sport and hobby shooting.

65 1 1

CUTTING-EDGE SEMI-AUTOMATIC RIFLES WITH IMPRESSIVE PARAMETERS

The CZ BREN 2 Ms semi-automatic platform is one of the most sophisticated on the global market. Its advantages include a simple design, extreme reliability, high accuracy, low weight and excellent ergonomics, as well as ambidextrous and easy to swap controls.

CZBREN 2 MS SERIES

MODEL	OVERALL LENGTH WITH FOLDED / UNFOLDED-EXTENDED STOCK (mm)	WIDTH WITH UNFOLDED / FOLDED STOCK (mm)	BARREL LENGTH (mm/in)	CALIBER	MAGAZINE CAPACITY	WEIGHT (kg)	THREAD	TRIGGER PULL (N)

This model combines the outstanding design features of the CZ BREN 2 Ms series with the impressive ballistic performance of the 7,62 × 39 cartridge. Standard equipment includes a 10-round magazine and mechanical sights.

The CZ BREN 2 Ms semi-automatic carbine is chambered in the popular 223 Rem. caliber. It comes with a long, interchangeable forend, 425 mm barrel and extended folding/ telescopic shoulder stock with raised comb. Its design is optimized for accurate shooting, even at longer distances. Standard equipment includes a 10-round magazine and mechanical sights.

Objective Lens Diameter:	42 mm
Magnification:	3 – 9×
Tube Diameter:	1 in.
Reticle Focal Plane:	Second Focal Plane (SFP)
Illumination Type:	Non-Illuminated
Adjustment Click Value:	¼ MOA
Parallax:	50m
Weather Resistance:	Yes
Water Resistance Level:	Waterproof

1-inch, small, compact scope with very impressive features and versatile optics. It has an industry-leading field of view, fast focus ocular, and generous eye relief.

Features a proprietary coating process that maximizes light transmission through each optical element surface. As light hits the optical surface, normal uncoated high-performance glass can reflect up to 5% of that light, redirecting this light so it does not transmit through the optical system. However, when these high-performance lenses are vacuum-coated with proprietary lens coatings, up to 99.7% of the available light passes through each optical surface. Furthermore, when every surface of the entire optical system is properly coated, total light transmission can reach up to more than 92%, making the optical image of the riflescope "bright," even in the lowest light conditions.

It also features a Double HD lens, created when multiple extra-low dispersion lenses are chemically laminated to make a single, multi-layer highperformance optical lens. Laminating multiple lenses minimizes light reflection on the surface of multiple lenses, creates enhanced resolution and color contrast images, and minimizes chromatic aberrations.

CZ CONFIGURATOR

.

Build the weapon of your dreams

Since 2019, Ceska zbrojovka a.s. has offered its customers an unrivalled opportunity to build a firearm in exact accordance with their wants and needs via an interactive website. You can choose the color of the frame and slide, type of sights (including a red dot sight), size and color of the controls, magazine capacity and much more. After placing a binding order, the configured weapon is assembled and ready for final sale, which takes place in accordance with legal regulations.

At the beginning of 2022, the CZ configurator was available in the Czech Republic, Slovakia, Poland and Germany, with the goal of offering this unique service to other countries in the near f<u>uture</u>.

If the CZ Configurator is not yet in your country, contact your local CZ Dealer to express interest in gaining access to this unique online service. In the meantime, you can fully try out the English version of the CZ Configurator here:

cz**configurator**.com

Ceska zbrojovka a.s. has been a member of CZG - Ceska zbrojovka Group - since 2018
